

# Assisted Management Solutions Capability Statement

41680 Courthouse Drive, Suite 100  
Leonardtown, MD 20650

**Mission Statement:** It is our mission to exceed our client expectations while providing a level of service that is unparalleled in our professional services industry.

## Company Overview

Assisted Management Solutions (AMS) is an SBA certified WOSB and an MDOT certified Hispanic and Woman-Owned MBE/DBE/SBE. We provide the highest quality technical expertise in the areas of environmental consulting and training, engineering services, GIS, management system implementation, database/web design, radon testing, and facilities information management.

We take the time to fully understand our client needs to ensure deliverables are meaningful, useful, and sustainable. We are innovative and professional problem solvers who focus on performance and client satisfaction.

## Areas of Expertise

- Environmental Consulting/EMS
- Water Resources Engineering/GIS
- Radon Testing Services
- Software Design
- Facilities Information Management

## Distinguishers

- **We are dedicated to developing the best strategies in the face of dwindling financial resources.** We work to fully understand our client's needs and develop meaningful solutions to solve complex management challenges correctly the first time.
- **We expend significant resources to retain highly qualified individuals with great work ethic.** Our employees make that extra effort to ensure our clients are happy with their work.
- **Our key personnel have years of experience with DOD contracts.** We are intimately familiar with how the Navy and Marine Corps do business. However, we can easily step outside of the box when a problem calls for new and innovative solutions.
